

## Tenant-to-pay (TTP) Repairs Items

The Housing Authority will be responsible for repair or replacement of in-flat Landlord's fixtures and fittings (except any glass in any door or window) arising from fair wear and tear. For the repair or replacement which is not due to fair wear and tear, or tenants request replacements while the relevant devices and equipment are still usable, tenants may approach the Housing Department (HD) for the arrangement of such works at their own cost. The charges for TTP repair items will be reviewed annually. For details, please inquire with the staff of the estate office. Currently, HD provides the following TTP repair items and charges are as follows:
