

## **Housing Channel**

### **Title: No Wax Boiling**

Son                   Mum! May I have some candles?

Mother               What do you want them for? You have an electric lantern

Son                   Siu-ming and I are going to the park  
  
to play with lanterns and boil some candle wax

Mother               Wax boiling?  
  
Son, don't you know that wax boiling is very dangerous?  
  
You could easily start a fire, and hurt yourself and others

Son                   We'll be extra careful

Mother               If there's an accident, you'll be sorry  
  
And you know wax boiling could cost us our home

Son                   How come?

Super                 5 points will be allotted  
for boiling wax in public areas

Mother               Remember the Marking Scheme for public housing residents?  
  
For boiling wax in public places  
  
tenants will be allotted 5 penalty points

That's the same as for littering

Son                   Even when it's just kids playing?

Mother                    Absolutely. All family members count as part of a household

During the Mid-Autumn Festival

the Housing Department will be stepping up patrols

So be a good boy, OK? Don't ever boil candle wax

Son                        Got it, Mum!

Super                     Have a happy Mid-Autumn Festival

Don't set fire to molten wax
