

so frames and parts must be repainted regularly

Use handles properly when opening or closing

Stays on steel windows must be fastened well

If the glass pane is loose or cracked

or if there are problems with the hinges

get them fixed as soon as possible

Super

Presenter

That's right

We're each responsible for our own windows

That means using them properly

That way we'll cut down wear and tear

and avoid potentially serious consequences

If you check your windows

and find any of the following problems

inform the estate office at once

to arrange for follow-up action

If the external hinges of your steel window

are very rusty or cracked

or there is seepage on the frames and walls

or if your aluminium window

has loose and mouldy rivets and screws

get them repaired at once
