### **Title: Community Impressions – In Harmony with Tin Yuet**

Wong Tse-kwong      My name is Wong Tse-kwong  
I'm a new immigrant  
I came to Hong Kong when I was 8  
and moved to Tin Yuet Estate in Tin Shui Wai when I was 12  
Most people in Tin Shui Wai have to work in the urban areas  
or far away from home  
As they can spend little time with their family  
their relationships inevitably become poor  
Every now and then I hear my neighbours quarrelling  
Some men got mad and yell profanity at their family  
I feel bad whenever I hear it  
Family problems are rife everywhere  
but those in Tin Shui Wai has drawn wide attention  
It is thus labelled the "City of Misery"  
I feel utterly unfair  
Tin Shui Wai is a close-knit community  
No matter in the shopping mall or basketball court  
I always bump into my friends  
I know some teenagers who hang out at night  
Sometimes I play basketball with them  
Though they smoke, drink and have no purpose in life  
I've found that if I care genuinely for them  
they are willing to share their feelings with me

After graduating from the Institute of Vocational Education

I started to work at my alma mater

as a student development executive

I want to share my experience with the students

I hope my work can unleash the students' potential

helping them pursue their interest and dreams

Super

In Harmony with Tin Yuet
