- Super                      Miggy  
                                    Homeward Bound to Tsui Ping
- Miggy                      I like making clothes and watching movies
- I am a costume designer
- I often travel abroad on business
- but I feel so happy to be back home every time
- It's not bad to live here, isn't it?
- Miggy's mother        The view here is the best
- but that of our flat isn't bad either
- Miggy                      Right. In what year did you move in?
- Miggy's mother        I moved here in 1961
- This area was called Kai Liu then
- There was no access by public transport
- We had to walk to Yue Man Square to take a bus
- Miggy                      It was quite inconvenient!
- Miggy's mother        Yes, it was
- Miggy                      I was born here after you had moved in, wasn't I?
- Miggy's mother        Yes, all three of you were
- Miggy                      Block 14 where I used to live in was right here

I thought this place used to be a football pitch

Our building was there, facing this direction

The pitch was very basic, no artificial turf whatsoever

My parents allowed me to play there

as they could see me from the flat and felt quite safe

When the parents shouted, "Dinner time!"

everyone would go home at once

Miggy's mother I was glad to be allocated this flat

with windows, gas supply and a kitchen of our own

We were so happy

Miggy When my family moved in, everyone was happy

We enjoyed our private space, with enclosed walls

In contrast, when living in the resettlement estate

the whole community was like a big family

Do you want to move again?

Miggy's mother No way. I am very happy to be here!

Miggy I will live with her anywhere she likes

Honestly I have never thought of moving home

She may not agree even if I so suggest

If she ever proposes it, I'll move with her then
