Title: Green Delight in Estates - Eco Experts – Collections (BYOB3)

Voice-over: You may collect everything in the world.
I like collecting these items.

This tote bag was made in 2000,
with smooth texture and exquisite workmanship.

This water bottle was made in 2011,
with unique form and functional style, mysterious and tasteful.
It is suitable for a mature and steady guy like me.

This environmental friendly lunchbox was made in 2013,
with a soft material in bright green colour.

The entire lunch box is meticulously designed and matches my suit.
Let me take this to work today.

Super: For breakfast !
For drinks !
For wet goods !
For herbal tea !
For vegetables !
