Title: Reduce Waste for a Better Future – Consumption Patterns

Anchorman: Regarding “Consumption Patterns”, could you share with us the way that can reduce domestic waste?

Wife: Firstly, our goal is to produce less waste.

Chung: Every time when we go out for shopping or dining, I would remind Mum and Dad that we should bring our own bags, food containers and personal utensils.

Chan: When buying presents for friends and family, I usually do not use wrapping paper.

Wife: I choose to buy family pack or refill pack products in reasonable quantity.

Anchorman: Is it very hard to change the consumption patterns that you are accustomed to?

Chan: I couldn't get used to it at the beginning. However, as long as you put in the effort to develop a habit, it is not that hard to reduce waste.
