Title: Keep Smoke Doors Closed

Super Keep Smoke Doors Closed

Brother Ming, let's call it a day, and continue tomorrow

Ming Ok! Thank you
 I'll tidy this up

Sister Hey, Bro
 Was it you and Ming who left the stuff here?
 and wedged the smoke door open?

Brother Yes, I help Ming to refurbish his flat
 We put the stuff here at the stairway
 to make it easy for us to use tomorrow
 and wedging the smoke door open
 it will be handy and airy

Sister How old are you?
 Don't you know the function of a smoke door?
 Tell me
 According to statistics
 What is the major cause of casualties in a fire?

Brother Fire, I guess?

Sister Wrong, it's suffocation caused by inhaling heavy smoke

Keeping the smoke door shut
can stop the smoke from spreading fast
and allow us more time to run for life
You have not only kept the smoke door open
but also blocked the stairway with these stuff
When there is a fire
how can people escape?

Brother I might be the "culprit" then
I'll clear the stuff with Ming right away
and keep the smoke door closed

Sister Right!
