Title: Check for Fire Risks - Even in a Hurry!

Super Check for Fire Risks - Even in a Hurry!

Dad My dear, Are you ready?

 Ah Kit's here to pick us up for *yum cha*

Daughter Almost, let me finish putting on my lipstick

Daughter Ah Kit, we're ready!

Ah Kit Wait a second

 Uncle, you haven't put out your cigarette yet

 That's dangerous

Dad Oh, yes ...

Ah Kit And ...

Daughter Oh, we should turn off electrical appliances that aren't in use

 We can go now

Ah Kit Do you smell something?

Daughter Smells great! It's beef brisket ...

Dad Oh no!

 I'm braising some beef brisket. I haven't switched off the stove yet

Daughter How careless of you, Dad

Dad: Well, have you checked to see if all the electrical appliances in your room are turned off yet?

Daughter Oh, I'm charging...

I switch it off now

Ah Kit Many home fires are caused by carelessness

We should always check if we've left behind any fire risks

especially before we leave home

Dad All clear! We can go now

Ah Kit When electrical appliances and stove are still on

Daughter Always check before you go
