Title: Watch out for Fire Risks at Home

Super: Watch out for Fire Risks at Home

VO: Fires at home can be highly dangerous
Your unwitting habits may endanger
the lives of your family and neighbours

Super: Use Electrical Appliances with Care

VO First, do not charge your device prolonged or overnight

Super: Don't charge your device prolonged or overnight

VO: Also, do not charge your device when there is no one around

Super: Don't charge your device when there is no one around

VO: Switch off the power once your device is fully charged

Super: Switch off the power once your device is fully charged

VO: Do not connect too many plugs
to a single socket or extension unit
to avoid overloading the circuit and causing a fire

Super: Don't connect too many plugs to a single socket or extension unit

VO: When you find any abnormality with your electrical appliances
such as overheating
a damaged cord or strange noise
stop using them immediately and have them checked as soon as possible

Super: Don't use electrical appliances with abnormalities

Super: Dispose of Cigarette Butts Properly

VO: After smoking, remember to extinguish cigarette butts completely
best if you dispose of them in an ashtray to avoid stuff lying around from
being burnt

Super: Make sure cigarette butts are extinguished completely

VO: Also, be considerate
Do not drop your cigarette butt onto the street
for it might burn the laundries at lower floors
which could be disastrous

Super: Don't dispose of cigarette butts carelessly

VO: Be cautious of home fire risks
let's start with daily habits
