

Guidelines relating to Enquiry of the List of Flats

Please note that we would try to upload the updated information of flats available for flat selection to the Hong Kong Housing Authority / Housing Department Web Site as soon as possible, usually after 6 p.m. on each flat selection day. As flat information may experience changes during the flat selection period, details shown in the flat list displayed in the flat selection venue shall always prevail. No further notice will be given if daily posting of updated information on our website is deferred or rendered infeasible due to technical problems. In that case, applicants may call the Housing Authority Hotline 2712 2712 for information on the number of remaining flats in each district.
