^(Note 1) **The whole flat selection process takes about one or two hours. For the safety of the applicants who have to travel to the flat selection venue or from the venue to home, we should ensure that they can return home as soon as possible after a pre-signal/warning announcement is issued two hours before the hoisting of Tropical Cyclone Warning Signal No. 8 or higher. Therefore, once a pre-signal/warning announcement is issued, only those flat selection sessions that have already commenced will continue, whereas all those that have not commenced yet will be cancelled. The Housing Department may also suspend the flat selection sessions that have started at any time having regard to the prevailing weather condition.**

^(Note 2) **As it takes time to re-arrange the flat selection sessions, the information may not be ready until a later time after the office has resumed operation.**

^(Note 3) **As there are bound to be a large number of people at the re-scheduled sessions, applicants are advised to follow the Revised Schedule as far as possible when they come for flat selection. Applicants who are not able to come in person may authorize their relatives/friends to select a flat on their behalf by completing the attached authorization letter or contact the Housing Department for special arrangements after the office has resumed operation.**
