

## **Safety & Health Alert No. 13/2020 Poster from Construction Industry Council – Prevention of Novel Coronavirus and Respiratory Tract Infection**

Date : 11 March 2020  
Our Ref. : HD(C)TS 4/49/26

In line with the Government imposed a 14-day mandatory quarantine on all the people entering Hong Kong from the Mainland since 0.00am on 8 February, the Construction Industry Council has updated the “Prevention of Novel Coronavirus and Respiratory Tract Infection” bilingual health advice posters.

We strongly recommend to print and put up at prominent positions at the construction sites (such as entrance, construction site offices, rest rooms for construction workers and toilets ).

The updated “Prevention of Novel Coronavirus and Respiratory Tract Infection” bilingual posters are also available for download on the CIC website <http://www.cic.hk> or from the following path:
