

Safety & Health Alert No. 43 / 2021

Prevention of Heat Stroke – Occupational Safety and Health Council

Date : 24 June 2021
Our Ref. : HD(C)TS 4/49/26

The promotional campaign "Prevention of Heat Stroke" is launched by the Occupational Safety and Health Council (OSHC) in collaboration with the Labour Department. OSHC reruns the campaign this year, and as in last year, it aims at reminding employees working outdoors to pay attention to the potential hazards of working in hot weather and to take appropriate preventive measures to reduce the risk of heat stroke. OSHC has updated the list of cooling products for employees who need to work outdoors in the hot weather. Some promotional materials on the subject matter are also listed below for easy reference. For more information, you may wish to visit OSHC's website at <http://www.oshc.org.hk/eng/main/hot/Heat/>.
