

Industrial Accidents in HA Construction
Sites in 1st Three Quarters of 2024
-Analysed by Type of Accident-

Type of accident	No. of case in New works	No. of case in Maintenance
1. Trapped in or between objects	2	---
2. Injured whilst lifting or carrying	9	---
3. Slip, trip or fall on same level	20	1
4. Fall of person from height	1	---
5. Striking against fixed or stationary object	3	---
6. Striking against or struck by moving object	6	---
7. Stepping on object	---	---
8. Exposure to or contact with harmful substance	---	---
9. Contact with electricity or electric discharge	---	---
10. Trapped by collapsing or overturning object	---	---
11. Struck by falling object	---	---
12. Struck by moving vehicle	---	---
13. Contact with moving machinery or object being	6	---
14. Drowning	---	---
15. Exposure to fire	---	---
16. Exposure to explosion	---	---
17. Injured by hand tool	1	---
18. Injured by fall of ground	---	---
19. Asphyxiation	---	---
20. Contact with hot surface or substance	---	---
21. Injured by animal	---	---
22. Injured in workplace violence	---	---
23. Others	---	---
Sub-total	48	1
Total	49	

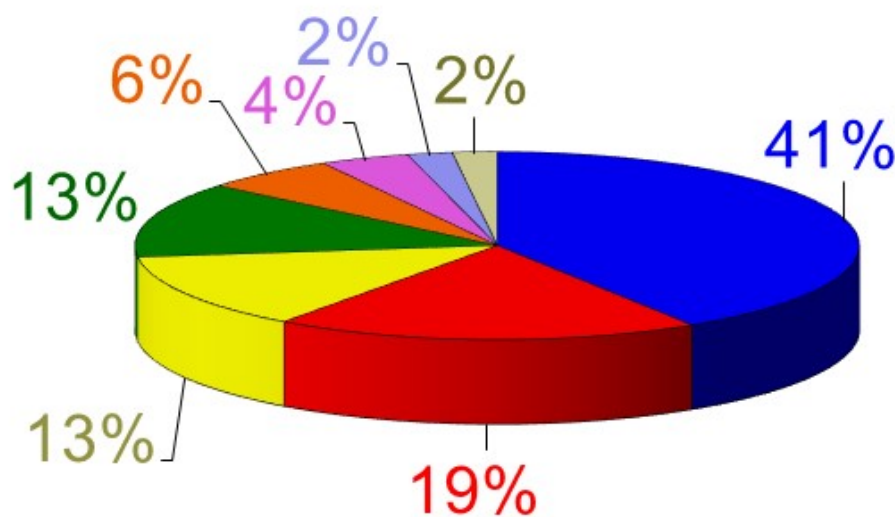

Notes:

1. Industrial accidents refer to injuries and deaths arising from industrial activities in industrial undertakings as defined under the Factories and Industrial Undertakings Ordinance.
2. New Works refer to those construction sites where new development or re-development works are being carried out. This included, but not limited to, building, piling, demolition, site formation and civil engineering works.
3. RMAA means repair, maintenance, alteration & addition and refers to those minor works such as construction projects for village-type houses in the New Territories, minor alterations, repairs, maintenance and interior decoration of existing buildings, term maintenance contracts and term contracts for maintenance work or repair (such as roads, water and drainage works)
4. Industrial Accidents on HA construction sites refer to industrial accidents of workers as well as site management staff of HA contractors or their sub-contractors on HA construction sites.
5. The above injury figures of 1st three quarters of 2024 are recorded as on 30 December 2024.

Statistical Data relating to Industrial Accidents in the Construction Industry and Housing Authority Works Contracts

Types of Accidents in New Works in 1st Three Quarters of 2024

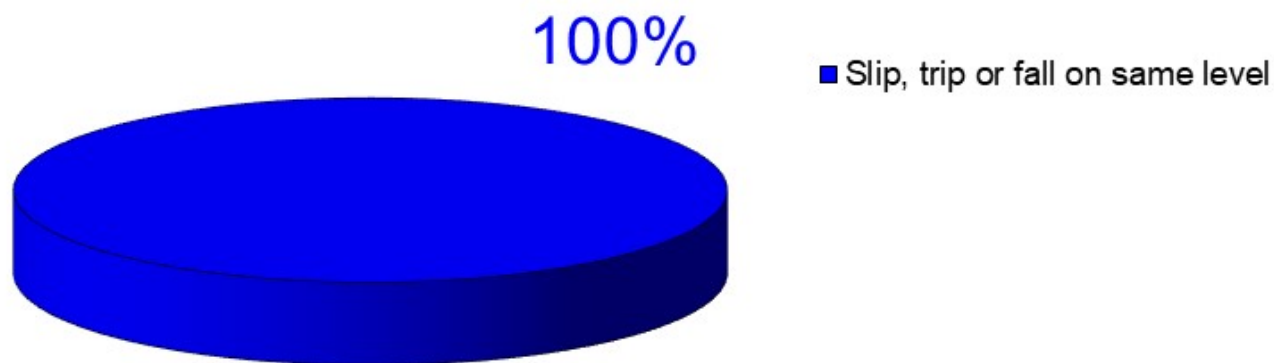

- Slip, trip or fall on same level
- Injured whilst lifting or carrying
- Contact with moving machinery or object being machined
- Striking against or struck by moving object
- Striking against fixed or stationary object
- Trapped in or between objects
- Injured by hand tool
- Fall of person from height

Statistical Data relating to Industrial Accidents in the Construction Industry and Housing Authority Works Contracts

Type of Accident in Maintenance Works in 1st Three Quarters of 2024
