

活動簡介

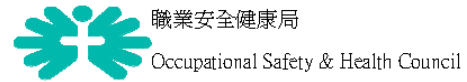

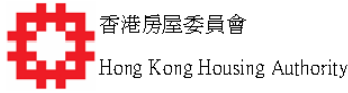

香港房屋委員會及職業安全健康局為喚起業界，對建造工程、維修工程及物業管理的工地安全的關注，繼去年與業務伙伴簽署安全約章後，再接再厲，於今日(2008年7月10日)再度攜手合辦「攜手共建安全文化·工程和物業管理工地安全研討會」。共有過千名來自建造業、物業管理、維修保養和清潔行業的業界代表出席於國際展貿中心舉行的研討會。

今年的研討會更邀請到建造工程、維修工程及物業管理業界的管理層，分別參與三個相關論壇，以互動形式，現身說法，分享及討論最佳作業模式，與會者均表示獲益良多。

為研討會開幕的房屋署署長陳鎮源重申，要進一步鞏固安全文化，業界並肩攜手合作極為重要，他並感謝以職業安全健康局主席李啓明為首的所有支持機構的鼎力協助。藉着是次研討會，業界交流寶貴的經驗和分享心得，透過推廣「安全氣候指數調查」及「香港安健屋邨確認計劃」，推動業界攜手協作，完善共建安全文化的願景。

Caption Story

The Hong Kong Housing Authority and Occupational Safety & Health Council jointly organised the second “Works Contracts and Property Services Contracts Safety Forum” today (10 July 2008) to arouse the industry’s concern towards safety at the work place. It is their second attempt following their first collaboration in 2007 which invited all industry partners to sign a Safety Charter pledging to working in partnership to foster a safety culture. Over a thousand participants coming from the fields of construction, property management, maintenance and cleansing attended the forum held at the HK International Trade and Exhibition Centre.

In the forum, CEOs of the construction, maintenance and property management companies were invited to attend three respective platforms to share their successful business models through interactive discussion which was well received by the participants.

Opening the forum, Mr Thomas Chan, Director of Housing, reiterated that partnership is the key success factor to the building of a safety culture. He thanked Mr Lee Kai Ming, Chairman of Occupational Safety & Health Council, as well as all the other supporting organisations for their concerted efforts in promoting safety culture in the work place. Whilst the forum has provided a unique occasion for sharing of valuable experience and best practice, tapping the “Safety Climate Index Survey” and “Hong Kong Safe & Healthy Estate Accreditation Scheme” initiatives have brought new dimensions in the perspective of partnering for a site safety culture.
