

Here is the footage of  
Site Safety Forum 2018 for Works Contracts and Property Services  
Contracts  
which was held on 3 July 2018  
Now is the second Question & Answer session

\*\*\*\*\*

(00:15)

Thanks, Mr. Yu. Now it's the time for the Q&A session  
We would like to invite Mr Ho Chi-fai of  
Yau Lee Construction Company Ltd.  
Mr. Ly Chi-bach of  
Mitsubishi Elevator Hong Kong Company Limited  
Mr. Ho Hoi-fung of  
Nice Property Management Limited  
Mr. Henry Cheung, Senior Consultant of  
the Occupational Safety and Health Council  
Mr. Wong Koon-Wah  
Divisional Occupational Safety Officer, Labour Department  
Please go on the stage  
and join the coming questions and answers  
Now I'll pass the Q&A session to Mr. Yu

Everyone knows the rules of the game  
Let's invite our 1st guest  
Mr. Ho of Yau Lee Construction Company Ltd.  
My question is about the caring programme  
What bad habit has been improved?  
There, he is fast  
Correct, smoking  
our staff please

Let's invite our 2nd guest

Mr. Ly of Mitsubishi Elevator Company Hong Kong Limited  
I just introduced  
our company's safety experience training  
Please state one of seven kinds  
of the experience training  
It should be you, the fastest  
Falling object from height  
Bingo

Mr. Ho of Nice Property Management Limited, please  
Mr. Ho felt that the question was too difficult  
and asked me to represent him  
I am Kwok Wai-hung  
We mentioned that Nice Property Management Limited  
What kind of equipment have we provided to our staff  
who work outside to cope with the hot weather?  
That is the question  
This lady please  
Cooling vest  
The answer is cooling vest, correct

The last question today will be for the OSHC  
Mr. Cheung  
please listen carefully as the question is quite long  
Is there any training course you would recommend  
to the people who want to be a safety supervisor?  
or for those who work in the renovation  
and maintenance industry or property management  
Would you please introduce the voluntary accreditation  
of safety supervisors in the construction industry?

Thank you, your question is welcome  
OSHC has a safety supervisor course  
for construction industry  
There is a long history, it was rated at

Qualifications Framework (QF) level 3  
under the Hong Kong Qualifications Framework in 2013  
The quality is assured  
As Mr. Yu just explained here  
We should strengthen the training to reduce human error  
This training is both theoretical and practical  
From personal to practical problem solving skills  
to equip our trainees to perform the supervisor  
responsibility according to the ordinance  
Regarding the voluntary accreditation service  
it was introduced recently under the Hong Kong  
Safety and Health Certification Scheme  
All should know required responsibility of  
safety supervisor under the regulation  
However, the regulation doesn't cover the qualifications  
that's why we launched  
this voluntary accreditation service  
for those who have  
certain qualifications and experience to apply  
The qualification can be recognized  
This also allows an easy path for continuing the study

Who are suitable to join this accreditation scheme?  
Those who have three years  
working experience with document proof  
and an inspection report  
Also the academic qualifications  
such as the course I just introduced at  
QF level-3 offered by the OSHC  
or any equivalent course  
run by the Construction Industry Council  
or the green card course  
recognized by the Labour Department  
A safety supervisor who has acquired  
QF level-3 is accepted

If his education record was over 4 years or longer  
or the course was completed 4 years ago  
then you need to take a refresher course  
If the course was not held by a QF level 3 organisation  
you need to supplement with  
the education proof for our further checking  
If the documents are acceptable  
your qualification can be acquired  
by passing an examination  
The qualification is valid for 4 years  
To maintain the qualification, you should take  
certain continuing professional development (CPD)  
within this period  
30 hours of CPD  
I hope you would support  
For details, please go to our counter or visit our website

Thank you, Mr. Cheung. Learning never ends  
The Q&A session ends here  
Let's pass the time back to the MC  
Thanks, Mr. Yu and all our guests  
Let's show our appreciation with warm applause

Thank you for watching
