

Foreword

Safety Forum 2019 for Works Contracts and Property Service Contracts

The Housing Authority (HA) has been organising the Safety Forum with Occupational Safety and Health Council (OSHC) for the 13th year since 2007. This year, we were delighted to have Construction Industry Council (CIC) as one of our co-organisers working together to promote safety culture and enhance site safety awareness.

Held on 3 July, the Forum attracted about 600 participants, including works contractors, property services agents, cleansing and security service providers, as well as the HA works and estate management staff. With the theme of “Caring Culture for Safe Work Practice”, site safety culture was promoted through inspiring presentations by industry representatives and interactive question and answer sessions. The participants could get the latest safety information through the exhibition area, which displayed personal protective equipment and site safety appliances and tools.

Foreword

Safety Forum 2019 for Works Contracts and Property Service Contracts

The HA hoped the annual forum would offer a platform for industry practitioners to exchange and promote site safety practice and work for our “Zero” accident target. To demonstrate our emphasis on the safety and health of our workers, there was a Safety Charter signing ceremony to signify the commitment of our honourable co-organising and supporting organisations towards bolstering caring culture for safety and health of our workers.
