Guests, please

Now, we have gift coupons to give away

Would our guests please ask the audience a question?

Please raise your hand to answer and receive a gift coupon

Principal Consultant of OSHC Dr Winson Yeung

Principal Consultant of OSHC Dr Winson Yeung

please ask the first question

Just now, I talked about the caring culture featuring 6 activities

Just now, I talked about the caring culture featuring 6 activities

Please name one of them

Name one activity mentioned, one of the six caring culture activities

Name one activity mentioned, one of the six caring culture activities

Safety Star Program, correct

Please clap, congratulations. Thank you, Dr Yeung

May we now invite

Assistant Project Manager of Gammon Building Construction Limited

Mr. Leung Man Hong to ask a question

For work at height, there is an inverted triangle

prioritise the equipment we can use

There is an equipment that should be the last resort

There's an equipment that should be the last resort

What is that equipment?

The equipment that I will not use unless absolutely necessary

Even when used, there's the need to fill out a form

The gentleman there

Ladder. Correct. Congratulations

Question number 4 now

Next

Senior Engineering Manager of Shui On Building Contractors Limited

Mr. Chan Ka Yeung will ask a question

About the floor openings

How big is the short side of a floor opening

when guard rails and toe boards need to be added?

The friend there

1.2 m

That is 1200 mm. Correct. Congratulations

Next we invite Senior Safety Officer of Sun Fook Kong Construction Limited

Mr. Cheng Man Hin to ask a question

Testing of anchorage device (eye bolt)

include a pull out test

Which organisation issues this certificate?

Which organisation issues the pull out test certificate?

Would the lady answer?

RPE

Incorrect

It is for truss-out scaffolding

Suspending

It is a big organisation

Big organisation

This lady

Occupational Safety and Health Council

Yes, correct. Occupational Safety and Health Council

Let us clap

Congratulations

Thank you, Mr. Cheng

Next, we invite Miss Sham Wan Yi of The Lift & Escalator Contractors Association

to ask a question

Just now we mentioned

fall protection of lift modernisation work

There are 4 steps, name one step

Can anyone?

One of the 4 steps is planning

Correct. The first step is planning

In all we do, we need to plan well

Now question 8

Safety Manager of Sun Fook Kong Construction Limited

Mr. Yu Kam Lun will ask a question

What is the software used by Sun Fook Kong

to formulate images and drawings

so that frontline workers can better understand work procedures?

The friend in white at the back

BIM. Correct

The animation was made with BIM

Next, Safety Liaison Officer of Nice Property Management Ltd

Mr. Lee Wai Lun, please

What are the 3 safety buddies of work at height?

The 3 safety buddies of work at height

We should know them well

They were mentioned several times today

The gentleman in black

Hop-up platform

What else besides hop-up platform?

There are three. Name all three please

Besides hop-up platform, there is mobile working platform

Are you sure? No

Another friend to try?

What are the 3 safety buddies?

The friend in the 3rd row at the far end on my left

No

It appears no one paid full attention

Anyone to supplement the answer?

The friend in blue in the middle

Step platform, hop-up platform, mobile working frame

The mobile one is also called mobile working platform

Mobile working platform

Congratulations

3 questions have been answered

When 9 guests have asked questions

I have got 2 questions from the audience

I wish to ask it quickly

This question is for

Dr. Yeung Koon Chuen of OSHC

about the building of a caring culture

about the building of a caring culture

The safety climax index can be a way of assessment

Can you explain the assessment method?

Will there be training programs?

How often should questionnaire surveys be conducted?

in order to get findings worthy of reference?

Assessment is very simple

There are 38 questions

We often see contractors at toolbox talks

They rally workers to fill in questionnaires

It usually takes 15-20 minutes

We adopt 3-NO policy

No name, no penalty, no record

because our focus is not on the respondents

because our focus is not on the respondents

How often are questionnaires conducted?

We usually do it every half year

Rest assured, it is not done every day. It is every half year

How are the findings used afterwards?

There are first, second, third comparison

to see if the promotion of the caring program

is there has any room for improvement?

To help us to understand how to use this software

we offer a course a one-day course

we offer a course a one-day course

Those who can't make it during the day

can take the night course for 2 evenings

This course explains climate index assessment

This course explains climate index assessment

There will be practicum too

You will learn to use some software

Our software is very simple

Input data and automatic analysis will follow

Findings and report will be made ready

But do not just take the face values and copy

You must make changes and renew

We have an example to help you use this software

We have an example to help you use this software

to assess the effectiveness of the caring program

Thank you

Where is the software available?

Good question

The software is free of charge

Visit our webpage to download the software

Visit our webpage to download the software

Thank you

Because of time limitation, we cannot take care of all your questions

Because of time limitation, we cannot take care of all your questions

Now, please give the guests another round of applause

Thank you again to the guest on stage

Please be seated

Thank you

We have listened to many speeches

Friends in the industry have learned a lot

Today's forum has come to an end

On behalf of the forum organisers, I thank again

all the guests and all the attendees

We expect all to share knowledge acquired today

with workers around you

Starting from today, all in the construction industry

will spread the caring culture

aiming at occupational safety and health

Thank you for watching
