

Here is the footage of

“Safety Forum 2019 for Works Contracts and Property Services Contracts”

which was held on 3 July 2019

by the Hong Kong Housing Authority

Now is the Charter Signing Ceremony of Caring Culture for Safe Work Practice

Thank you, Chairman Chan

Please be seated

Thank you again, Construction Industry Council (CIC)

for being our co-organiser

Our theme this year is To Promote a Caring Culture

To build a caring culture cannot be done overnight

It relies on the cooperation of employers and employees

to make it real

Employers must have the heart

to walk the extra mile for workers’ safety and health

Besides providing suitable safety equipment

regular occupational safety and health training is necessary

That will reinforce their knowledge

they will remain alert at work for long periods of time

Workers need to accept

but not complain about inconvenience of protective equipment

use related equipment properly for their own safety

Of course, if workers have any opinions about work safety

they must voice them out proactively

We must complement and supplement each other persistently

we can firmly build a caring culture at work

Several guests have mentioned that

the co-organisers and sponsors

will show their determination to promote a caring culture

We will celebrate this and have arranged a

Charter Signing Ceremony of Caring Culture for Safe Work Practice

In a little while, we will invite representatives from different organisations to  
come on the stage to sign the charter

as a token of the organisations' pledge  
to guarantee workers' safety and health

Today we have 19 organisations ready to sign the charter

To protect our workers, there must be a safe environment  
and also a peace of mind

like what we have just mentioned  
workers need to be hired not on daily wages

Other measures are also necessary

Workers need to be at peace of mind  
working in a worry-free environment

Later, there will be different sessions to share with you  
work safety knowledge and

major points that we should pay attention to

The stage is now ready

Now I will introduce the programme of the ceremony

We will invite representatives from 4 groups to the stage

For each representative, a tablet is placed on the stage

For each representative, a tablet is placed on the stage

When you hear my signal

representatives please sign on the space

At the same time

the screen will show your signatures on the charter

After signing, please be seated according to the guidance

This is the 13th year of the Forum

All these years, we have expected

to pay closer attention to work safety

There have been different themes

promoting safety from different perspectives

arousing the awareness of the management and workers

to reduce risks in the workplace

On behalf of the organiser

I thank again OSHC, LD

New Works and Maintenance Contractors

OSH Award winning companies have always been supportive

Your invaluable practical experience

will be of great benefit to us, especially when later today

we will have over 10 guest speakers to share on different topics
