

工程和物業管理 安全研討會 2021

Foreword

The 15th Safety Forum organised by the Hong Kong Housing Authority, the Occupational Safety and Health Council and the Construction Industry Council was successfully convened on 14 July 2021. In view of the pandemic situation in Hong Kong, the Safety Forum was conducted in the form of webinar. The webinar and the replay session attracted about 800 participants, including works contractors, property services agents, cleansing and security service providers, HA works and estate management staff as well as industry practitioners.

Through inspiring presentations by industry representatives and interactive question and answer sessions, and with the theme of "Safe Practice Bolstering Professionalism of Work Personnel", the Forum serves to effectively promote better site safety performance through a team work.

The HA hoped the annual forum would offer a platform for industry practitioners to exchange and promote site safety practice and continuous improvement on safety performance.
