

Housing Authority Occupational Incident and Disease Surveillance System (HAOIDSS)

**香港房屋委員會
工傷及閃失事故和職業病監測系統**

Developed by
Occupational Safety and Health Council (OSHC)

HAOIDSS

- Developed by OSHC
- A web-based information management system for Housing Authority (HA)
- 3 main objectives
 1. To allow contractors to record accident and incident cases happened in workplaces
 2. To assist contractors in completion of forms for notification of accidents, incidents and occupational diseases to Labour Department
 3. To provide HA the capability to generate statistics and charts for incident and disease surveillance

HAOIDSS

- Benefits of HAOIDSS
 1. A data-based platform, records are easily to be traced back and monitored for different parties
 2. Systematic, records and forms can be fast generated
 3. Reduced paper workload for frontline staff
 4. Computerized statistics and analysis charts for inputted cases to assist users for identifying trends and causes of accidents and incidents

HAOIDSS

- 3 Main Parties of HAOIDSS

1. Contractors

- Input data of accidents, incidents and occupational diseases; view data of their own in the system monitored by OSHC

2. Housing Authority
