Here is the footage of  
Site Safety Seminar for Capital Works New Works Contracts  
of Housing Authority which was held on 12 April 2018  
The speaker is Senior Consultant of  
Occupational Safety and Health Council  
Mr. Henry Cheung  
His presentation topic is  
Surprise Safety Inspection Programme (SSIP)  
Findings in the 4th quarter of 2017 and the 1st quarter of 2018

\*\*\*\*\*

(00:31)

Let's begin

The inspection period was the same as that  
presented by my colleague Mr. Fong  
The fourth quarter of 2017 and the first quarter of 2018  
Our inspectors went to the New Works sites for inspection  
We have been inspecting HA New Works sites for a few years  
The latest information is on the right-hand side  
In the fourth quarter of 2017  
we conducted 51 site inspections  
and the median score is 91  
In the past quarter, we have inspected 47 construction sites  
In the past quarter, we have inspected 47 construction sites  
The number is similar which is about 40 to 50  
The median score is 92  
The median scores of 92 and 91 are quite ideal  
The scores go up and down  
I hope everyone will continue to strive  
for the best to reduce incidents

We also found some good construction sites  
For example, in terms of the colour coding system  
in addition to colouring the lifting gear

some organizations will add barcodes and labels  
This is additional information and it is also acceptable  
We also mentioned QR code just now  
which usually stores important information  
Especially for the use of lifting gear  
it's a good practice to enable reviewing  
the relevant information by scanning  
This is the end of the sharing  
Thank you

Thank you for watching
