

Here is the footage of

“Site Safety Seminar for Capital Works New Works Contracts”

which was held on 26 April 2019

by the Hong Kong Housing Authority

The Speaker is

Mr. Wong Mung Wan

Assistant Director (Development & Procurement) of Housing Department

He is now delivering a welcoming address

Good afternoon

Welcome our honourable guests

friends from the industry and our colleagues

to Site Safety Seminar for New Works Contracts today

Thank you speakers for preparing many topics to share with us

For Part 1 and Part 2 of the seminar

we have invited Occupational Safety and Health Council (OSHC)

Senior Consultant Mr. Jack Fong

to share with us

findings in the 4th quarter of 2018 and the 1st quarter of 2019

of the Housing Authority Safety Auditing System (HASAS)

Housing Authority Lift & Escalator Nominated

Sub-contracts Safety Auditing System (HALENSAS)

Jack would also share with us

site work practices observed in audits

To comply with new regulations and contract requirements

HASAS progresses and develops with times

In Part 3, Jack will speak on the latest HASAS version 1.6

and the HALENSAS version 1.2

Major changes will be discussed

For Part 4, we are happy to have

a colleague from the Labour Department (LD)

Divisional Occupational Safety Officer (Operation Division)

(Airport and Railings)2 Mr. Cheung Kwok Wan

to share with us

safe erection, alteration, dismantling and use of scaffold

After the break

Mr. Henry Cheung, Senior Consultant of OSHC

will give a report on

the findings of Surprise Safety Inspection Programme

in the 4th quarter of 2018 and the 1st quarter of 2019

On 1st February this year

safety innovations and good work practices are added

to the Specification Library of the HA's new works contracts

Our Senior Manager/Safety & Health, Mr. Timothy Lau

will give us an introduction shortly

of these new site safety requirements

so that we will familiarise with them fast and execute them with ease

At the end of each session, there will be a Q&A

We can use this interactive platform

to share and exchange experiences and wisdom

to improve safety measures, to promote site safety

As per prevailing practice, the seminar today will be recorded

and uploaded onto the site safety website of HA

All can access the website

Do go to it if you wish to revisit the seminar today

Any colleagues and members of the industry

who cannot be here today can visit the webpage later

Thank you

Thank you for watching
