FEATURE PROJECT 2024 (Jan to Dec)

KAI CHUEN COURT

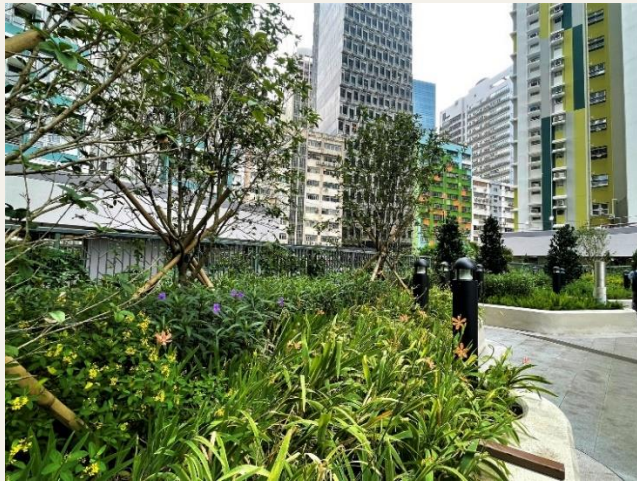

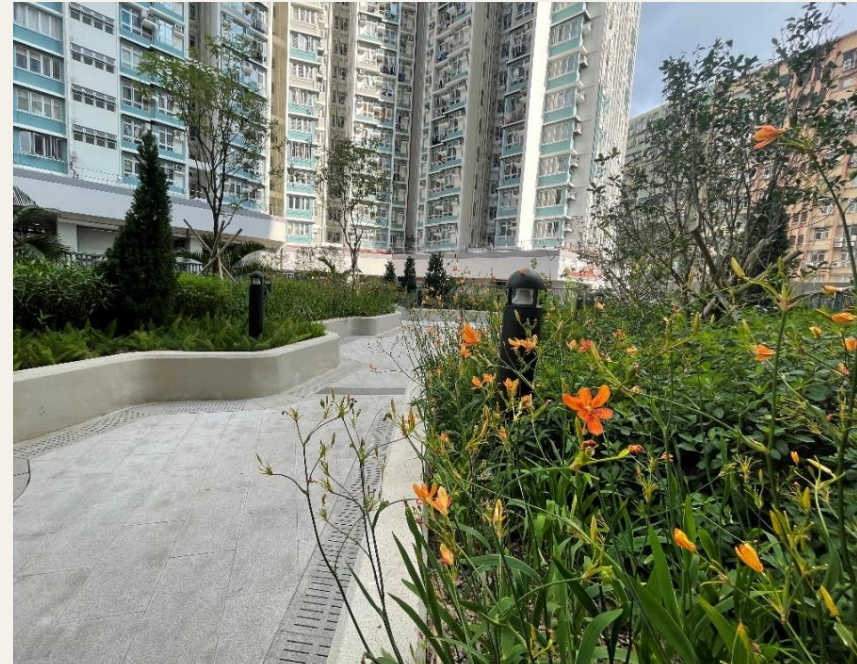

DISTRICT: Diamond Hill

DESIGN THEME: Urban Oasis

A tranquil, multi-layered urban oasis has been thoughtfully designed to provide residents with a serene escape from the hustle and bustle of the city. The open space arrangement features a selection of diverse flowering plants and colorful foliage of varying heights and textures, creating rich visual layers and a harmonious landscape. Winding pathways seamlessly connect various garden spaces at different levels, allowing users to stroll freely, unwind, and socialize in these lush surroundings.

The oasis is enriched by an ever-changing display of seasonal blooms, diverse foliage, and leaves of varying colors, shapes, and textures. Extensive vertical green walls serve as a green backdrop, enhancing the lush environment and offering a dynamic sensory experience throughout the year.

To further enhance the atmosphere, rooftop greenery has been incorporated atop commercial spaces and basketball courts, brightening the upper residential units while reinforcing the project's commitment to sustainable, nature-driven urban living. Through these thoughtful design elements, the development cultivates a harmonious connection between nature and the urban lifestyle, fostering a peaceful retreat for all who call it home.
